IT EDUCATION ONLINE? MOBILITY AS A RESOURCE

Mobility as a resource

- Instant decision making.

- Location-based context.

- More dependant on society (social networks – word of mouth – personal experience).

- Permanent communication (online).

IT EDUCATION ONLINE? MOBILITY AS A RESOURCE

Digital drivers

- Digital economy.

- Interdisciplinary knowledge vs Focused approach   - Agile approach?

- Big Data – what to do with the data – information – knowledge when they are increasing?

- Uncertainty and different scenarios for HiTech.

IT EDUCATION ONLINE? MOBILITY AS A RESOURCE

IT Education online?

- Project-based learning – but projects are not the whole learning.

- Collaborative VLE (virtual learning environment) due to coming globalization.

- Adaptable knowledge generation – AI will get the knowledge out of information and will put it in the most prominent social media – to avoid "waste" in time for content creation. Probably, functional trainings courses generation?

- Personal (individual) education and content based on personal data (history).

- Content relevance check – due to the fast change in environment.
